

I am a voter and an x-m subscriber I enjoy it very much so much in fact that i pay for this service. i have 3 radios it is my right to enjoy this service. everthing x-m has done meets my approval.the traffic / weather service excides all expetations it is a great service just give it a listen and see if you don't agree 100% ALL the music channels are great the news ,sports, and information stations are great the open road channel is the best please think of what you are voting on before you vote we need this service. I really dont think it is fair because some networks are slacking that they would sponcer a bill to end the service of the ones that are doing a great job.
thank you very much
